SUMMARY

Dedicated Aspiring Junior Web Developer

I am an enthusiastic web developer with a robust understanding of both front-end and back-end development. My approach combines technical expertise with a knack for creative problem-solving.

Front-End Expertise:
✅ Proficient in HTML5, CSS3, and JavaScript frameworks such as React and jQuery.
✅ Skilled at crafting responsive and intuitive interfaces using Bootstrap.

Back-End Proficiency:
✅ Seasoned in server-side development utilizing PHP and MySQL.
✅ Knowledgeable about Node.js and Firebase for the development of real-time applications.

Additional Tools & Platforms:
✅ Utilize Git and npm for streamlined version control and package management.
✅ Well-versed in content management systems like Shopify and WordPress.
✅ Possess design finesse with tools like Figma and Adobe Photoshop for a holistic approach.

Driven by a Passion for Learning:
I am continually eager to expand my knowledge and skills within the dynamic realm of web development. Let's connect and explore how I can contribute to your next project!
